| NO. | PART NO. | PART NAME | QTY | MATERIAL | |

- Technical requirements:
1. the product according to BS 5041-1:1987 design.
 2. The landing valves are suitable for continuous use at 15bar pressure rating throughout temp range from 0℃to 38℃
 3. Seal test: the test pressure 16.5bar, the test medium:water,holding pressure 2 minutes.
 4. Body strength test: the test pressure 22.5bar, the test medium:water,holding pressure 2 minutes
 5. Water flow rate test: Control valves to give a flow rate of 8.5L/min, Out pressure≥4bar when inlet pressure 4.7bar.
 6. The number of turns 4~10
 7. Body thickness≥3mm
 8. All o-rings, washers are hansheng procurement.
 9. Fully red painting of body & bonnet surface (RAL3000)
